

## ANODIZING COLOR GUIDE

ALUMIL, being well aware of the modern architectural trends and sensing the market's need for enhanced service and quality, has created an unmatched pallet of anodizing colors for exterior and interior architectural applications.

## INOX

Inox anodizing pallet is ALUMIL's flagship among its available surface finishes, providing the most elegant colors that highlight the quality and aesthetics of its systems.

## BRUSHED FINISHES

Meeting the architectural needs for a wide variety of textures and finishes, ALUMIL also offers all its anodizing colors in elegant linear brush finishes.

"Brushed" anodizing highlights the linear nature of ALUMIL's modern systems, while on the other hand "ultra brushed" anodizing offers unparalleled dynamic aesthetics.
